## 1. INTRODUCTION

FidNos Corporation is an IT technology-driven company that delivers state-of-the-art IT solutions, training, evaluation, and management consultancy services for corporations, businesses, and educational institutions, targeting consumers on local to global scales. During years of successful work and dynamic development, we have formulated our own principles based on a constantly refined system of customer service, an extensive network, highly skilled staff, and a focus on the business requirements of our partners.

FidNos Corporation provides unique business profit and performance improvement services to managing officers and corporate companies. We make possible levels of corporate transformation that are an order of magnitude greater and faster than those obtainable by traditional means. We have created a truly unique and uniquely successful technology/methodology for our work. It identifies and measures the root causes of performance issues and triggers changes in them. We work with senior management, acting as catalysts in the improvement of their companies. This is something entirely unique to our practice. Our consultants are all accomplished corporate diagnosticians, business catalysts, and fierce advocates for the success of our clients.

## 2. OUR MISSION & VISION

## ■ TRAINING & EVALUATION

In an ever changing and fast paced corporate world, training and development is an indispensable function.

Training and development is one of the lowest things on the priority list of most companies. When it's organized, it is often at the persistence of the human resources department. There is, however, enormous value in organizing proper training and development sessions for employees. Training allows employees to acquire new skills, sharpen existing ones, perform better, increase productivity and be better leaders. Since a company is the sum total of what employees achieve individually, organizations should do everything in their power to ensure that employees perform at their peak.

FidNos is offering professional trainings courses in more than 40 different course in association with local and international business associates, we have offered many public courses at very low prices in association with world leading organizations and institutions to build a strong force of Management, quality, Environmental and OHSAS, IT & Pharmaceutical professionals in the country.

## ■ ISO & OHSAS CERTIFICATION

We provide an authoritative, comprehensive and value added consulting, training and certification services for either new certification with respect to ISO 9001:2015 or helping organizations migrate from ISO new standards.

We also provide a complete set of consulting services to help your organization identify requirements as per ISO new standard and map the compliance requirements as per ISO revision to your current processes.
